

Lounge Armchair 822

TON

This seating collection was created in partnership with the Swedish studio Claesson Koivisto Rune. It takes inspiration from Josef Hoffmann's 1930 design of the modernist model A811, with the Swedish creators extending the design in the direction of contemporary Scandinavian minimalism. They have created a distinct version whose proportions work better with the natural forms created by manual wood-bending technology, and which gains a unique character from the graphic dot perforations in the plywood seat and backrest. These design principles have been applied to a chair, an armchair, a lounge armchair, a bar stool and a low stool.

Technical Specifications

Designer:	Claesson Koivisto Rune
Lead Time:	Indent 18+ weeks;
Sectors:	Education, Hospitality, Residential, Workplace
Suitability:	Indoor
Warranty:	5 years
Dimensions:	Height: 74.2cm Depth: 61.5cm Width: 58.4cm Seat Height: 41.5cm
Application:	Education, Hospitality, Residential, Workplace
