

Blume System

Pedrali

Blume System is a furnishings that echoes the sophisticated flower-shaped profile in extruded aluminium of the seating collection with the same name. Three- or four-level shelving system with steel structure fastened together by means of aluminium castings, with no visible screws, so as to highlight the precious details of the legs while being both stable and durable at the same time. The aluminium is anodised in various finishes or coated in a variety of colours. This, combined with elegant shelves in marble or more innovative materials, allows for utmost customisation and versatility.
