

Héra Lounge Armchair

Pedrali

Héra Lounge embodies the concept of lightness fusing it with that of comfort and elegance. Made of ash wood, its backrest in curved solid wood is defined by an enveloping and sculptural band ends in rectangular legs with radial angles. The polyurethane foam seat supported by elastic belts maximises the sense of cosiness. A clean design, delicate, subtle forms, and attention to detail make Héra lounge particularly suitable for use in leading international hotels but also in residential spaces.
