

Earl Armchair 94-12/4

Piaval

Earl is light in its shape, subtle in its depth but highly resistant – an important consideration when it comes to large-scale, turnkey furniture solutions. The collection, made entirely of solid curved beech wood, confirms Piaval's penchant for sleek aesthetics, but hides careful and complex woodworking skills in its simple design. This is the result of an accurate research and know-how, rooted in traditional curved-wood chair manufacturing and cutting edge production technology. The synthesis between light, agile visuals and the solid material make Earl an eclectic collection, perfect for public spaces such as libraries, cafés, meeting rooms and more.
