

Babila XL 2754

Pedrali

Babila XL fits harmoniously within a collection poised between tradition and innovation. An armchair with a polypropylene shell stands out for the large dimension of its seat and armrests. Solid ash wood legs. Babila XL also comes in a version made entirely from recycled material: 50% from plastic material post-consumer waste and 50% from plastic material industrial waste. Babila XL “recycled grey” is one of the first Pedrali products made from recycled polypropylene.
