P.O.V Table 464

TON

The P.O.V. collection features a modular design and an organically shaped table base. While it may look discreet, this P.O.V. table has the potential to command a room – it all depends on your point of view. At 73 cm high and 40 cm wide, the two bases provide complete stability and support for a large tabletop. This version can be paired with three different tabletop shapes – rectangle, oval or spheric rectangular.
