

Tiller Slim Chair

Didier

A cleverly engineered all-rounder in multi-layered ply, Tiller Slim's Four Leg Chair invites ease of use in both home or workplace. The Tiller Slim encourages full seating flexibility for both private and high-traffic public interiors. Offering a high level of customisation, the range is fabricated with moulded timber shells, steel frames and finished in resilient powder coated colours. American Oak moulded seating shells (natural, painted, stained and upholstery options – fabrics and leathers), steel fabricated frames, powder coat finished to colour, nylon glides.
