

Feline Low Side Tables

Didier

Laying low and pure, Didier's new Feline tables are linear in design with a centred, cantilevered form and a balanced stance. Feline is a complimentary concept supporting the Puffalo lounge range with the ability to be placed within the billowing, upholstered modules to create layered geometric shaping. Feline tables are manufactured using solid oak timber with veneers, and available in a range of sizes and heights.

Technical Specifications

Designer:	Ross Didier
Lead Time:	Manufactured (6-8 Weeks)
