

Aplós®

Handcrafted, Australian designed and made furniture for aged care.

Our Story

The passion that guides us in our work is based over 20 years of award winning authentic design and local production.

The Aplos ethos places people at its centre. We design with, understand, and adapt in response to the world around us and how it influences our everyday lives and interactions. We design products with a distinct visual identity, as well as warmth, personality, and emotional resonance.

Our History

Helen Kontouris, our Art Director, created Aplos in 2019 after more than 20 years in the design industry, collaborating with the world's most prestigious galleries, collectors, and brands.

Australian Made

Our collections are all developed and crafted in Australia. We are proud of our artisans and team of makers, and we place a premium on authenticity.

Approach

The Aplos history is steeped in our ability to reflect contemporary culture and our ability to respond in synchronicity to the ever-changing cultural shifts and requirements. We create contemporary furniture and products that are visually distinctive and recognised by their exceptional quality. As a result, a harmonious blend of imagination, innovation, and manufacturing excellence has been achieved.

Studio

With The Village, we collaborated closely with James Richardson Furniture in response to an exploratory discourse to create a unique, engaging, and thoughtfully considered aged care furniture collection. Underpinned by extensive research to amplify and explore movement whilst balancing elevated comfort, versatility and luxury.

The Village provides an elegant seating collection, encouraging community, connection, and belonging.

A sophisticated furniture collection exploring authentic timeless luxury, together with supportive environments for people. To create functional, comfortable and versatile interior spaces.

The Village as the namesake suggests, celebrates a family of lounges for living environments.

The collection emphasises sumptuous comfort and quality enhanced by textural detailing and contours.

The Village offers you the ability to create unique and completely flexible environments to connect, rejuvenate, and relax.

Autonomy

We undertook significant research in person-centred design to create a collection encouraging and maintaining autonomy and functionality by balancing sit to stand ergonomic proportions, fostering a sense of dignity.

Dignified

The Village collection resulted from the desire to be informed by and create a collection that embraced human-focused research.

Quality

Designed and handcrafted in Australia using the highest quality materials, The Village creates inviting and refined interior spaces by layering supportive rich densities of foam balanced with intricate stitch details.

*The Village,
designed to balance quality
and comfort with flexibility.*

Configuration Examples

Connect, reconfigure and create with the flexibility of the The Village collection of ottomans, sofas and lounge elements. Conceived to suit the versatile requirements of any interior space.

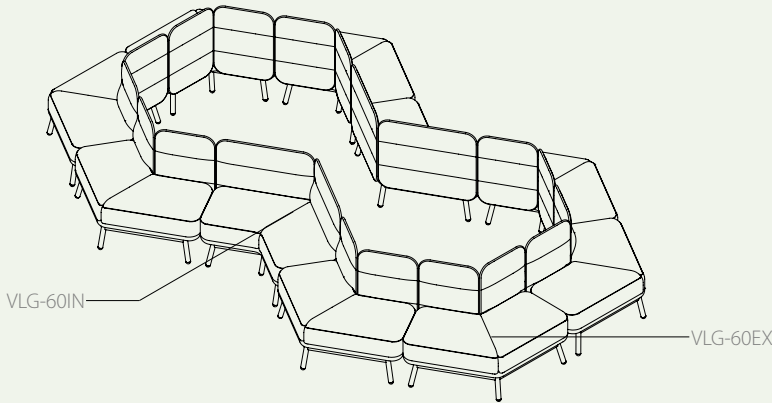

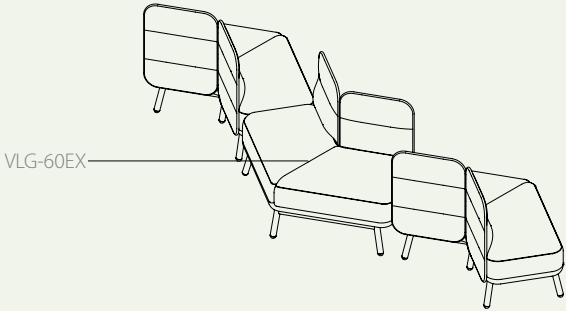

EXAMPLE # 1

All angled models can be grouped together to create geometric shapes to provide space for groups or meetings.

EXAMPLE # 2

Different seating options are provided by larger configurations, switching backrests, and seat orientation in larger open plan environments.

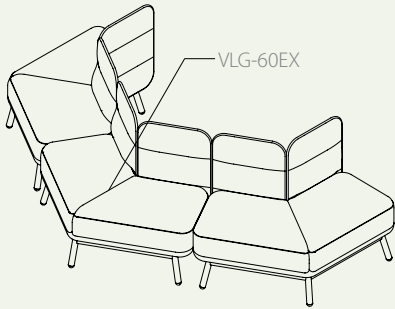

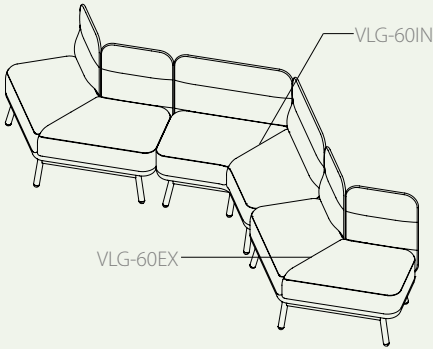

EXAMPLE # 3

Larger setting to fit around objects such as columns, planters, or walls can be created using our angled models.

EXAMPLE # 4

60-degree inward lounges paired with 60-degree ottomans create visually engaging yet informal meeting, dining or working environments.

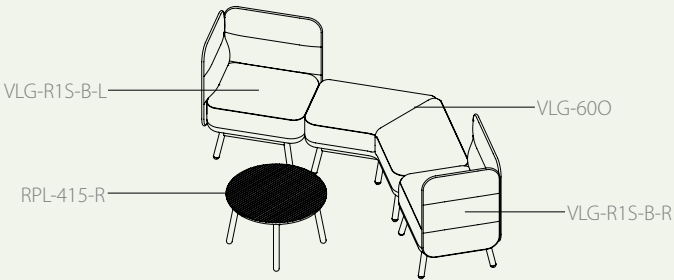

EXAMPLE # 5

Angled models can be combined to form geometric shapes that can be used for gatherings or meetings.

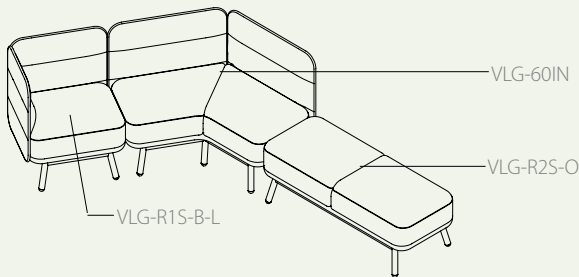

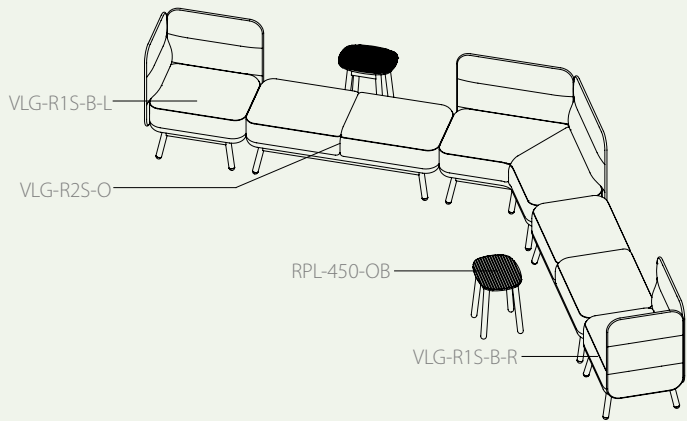

EXAMPLE # 6

Rectangular lounges and ottomans mixed with angular ottomans combine to create irregular engaging seating arrangements.

EXAMPLE # 7

Corner lounges combined with ottomans and 60-degree lounges create space and flexibility to utilise opposite sides of the seating setting.

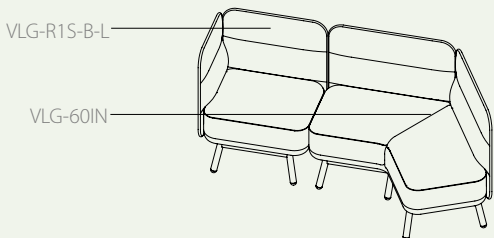

EXAMPLE # 8

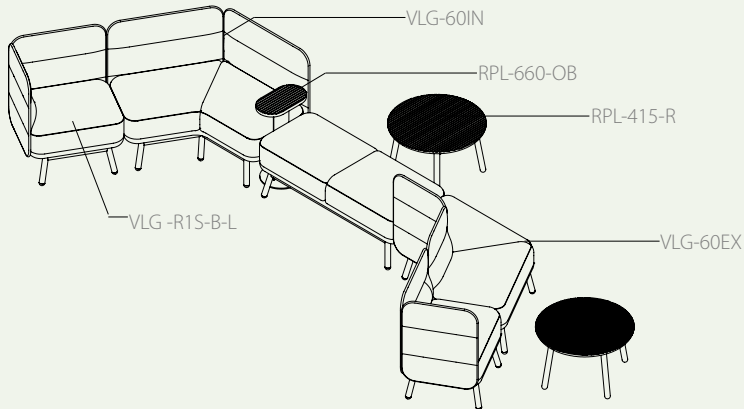

Engaging seating arrangements are formed by combining rectangular lounges and ottomans with angular settings.

EXAMPLE # 9

Corner lounges mixed with 60-degree seating elements combine to create flexibility in compact interior spaces.

With the versatility of the The Village range of ottomans, lounge elements, and sofas, you can effortlessly meet the diverse needs of any interior space.

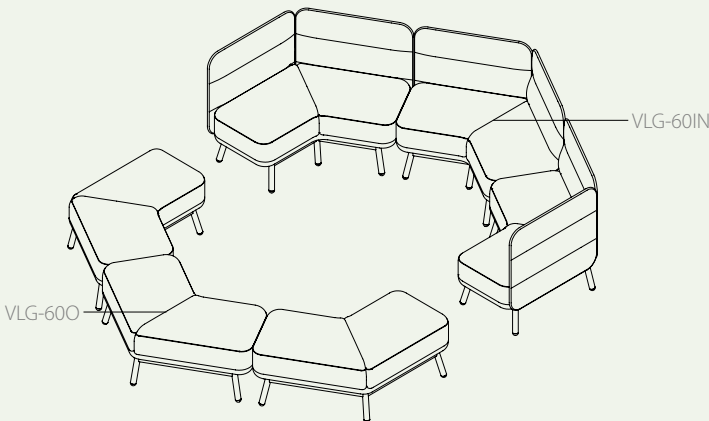

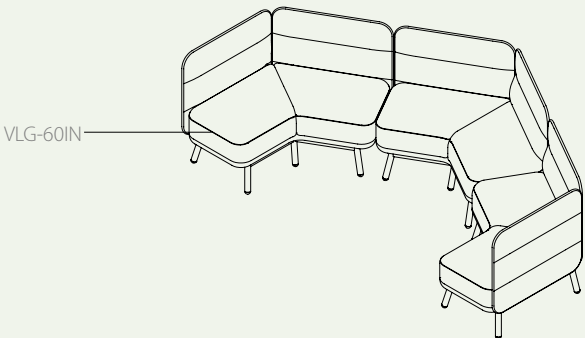

EXAMPLE # 10

In wider open plan settings, larger configurations, switching backrests, and seat orientation offer different seating choices.

EXAMPLE # 11

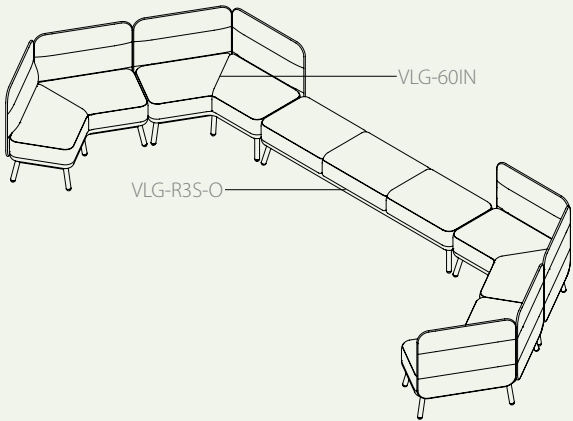

60-degree internal facing lounges grouped together create engaging work or meeting spaces. Combine our flexible occasional tables between lounges or standing independently.

EXAMPLE # 12

When paired together, 60-degree internal-facing lounges combined with 60-degree ottomans create engaging dining, work, or meeting spaces.

Effortlessly achieve the diverse needs of any interior space with the versatility of the The Village range of ottomans, lounge pieces, and sofas.

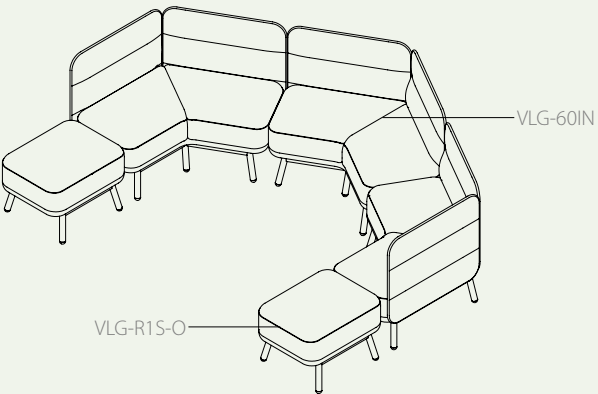

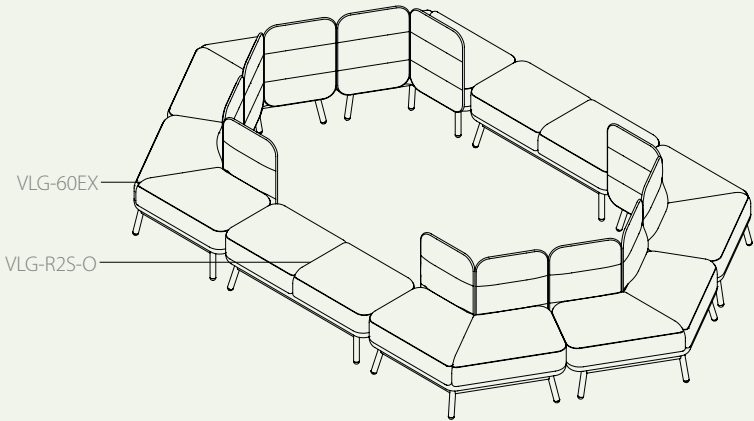

EXAMPLE # 13

Corner lounges, ottomans, and 60-degree lounges maximise flexibility and versatility by using opposite sides of the seating arrangement.

EXAMPLE # 14

Our angled models can be used to make larger settings that fit around items like columns, planters, or walls.

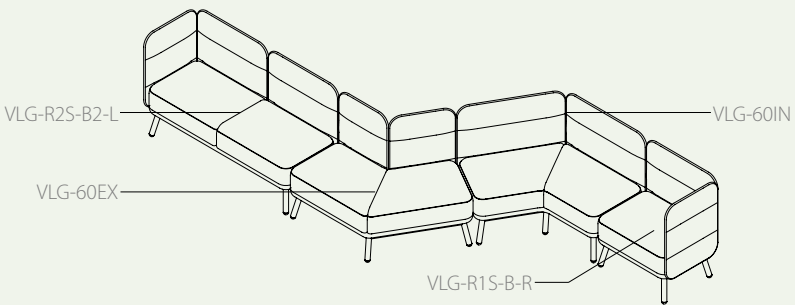

EXAMPLE # 15

Inward facing 60-degree seating combined with rectangular ottomans offer inviting spaces to meet, relax, or wait.

EXAMPLE # 16

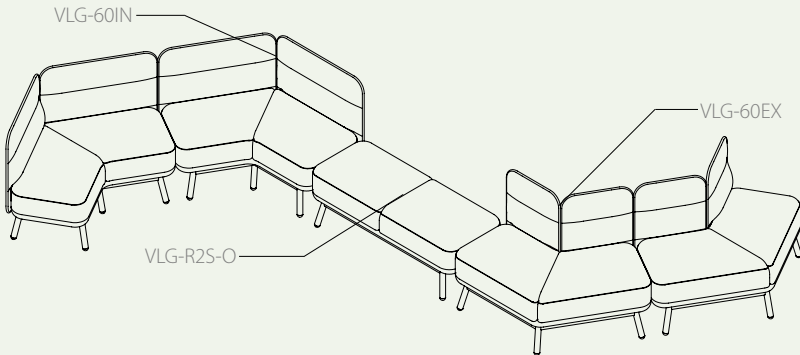

A combination of inward and outward facing 60-degree lounges mixed with a lounge and corner model provides the perfect backdrop for dining environments, breakout areas, and work spaces.

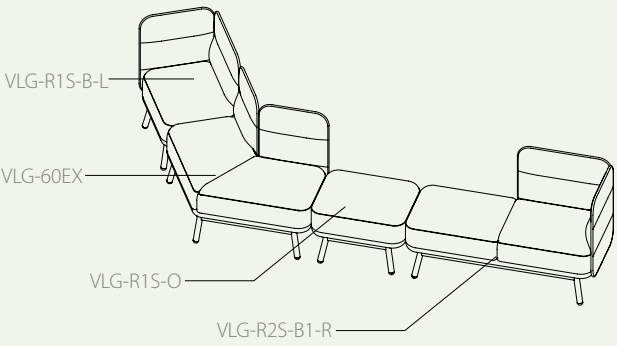

Connect, Relax, Rejuvenate

EXAMPLE # 17

Reverse facing 60-degree models paired with straight ottomans provide both introverted and extroverted spaces, ready for meeting, waiting, or working.

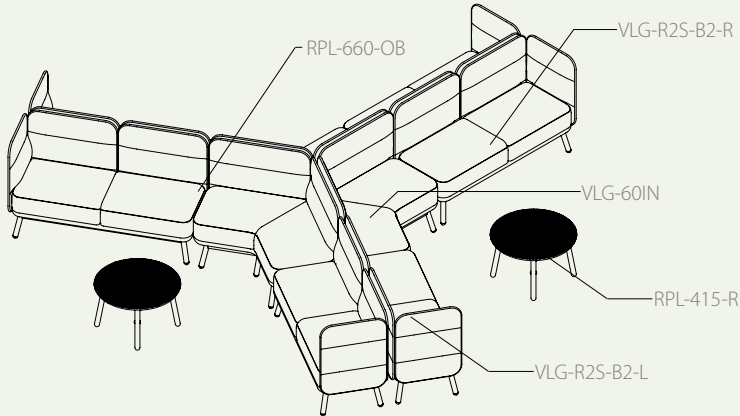

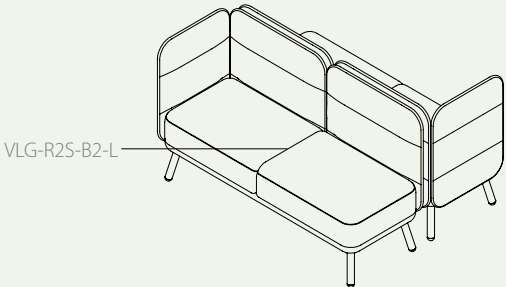

EXAMPLE # 18

Incorporating ottomans together with lounge units in larger open plan areas assists in unifying an environment.

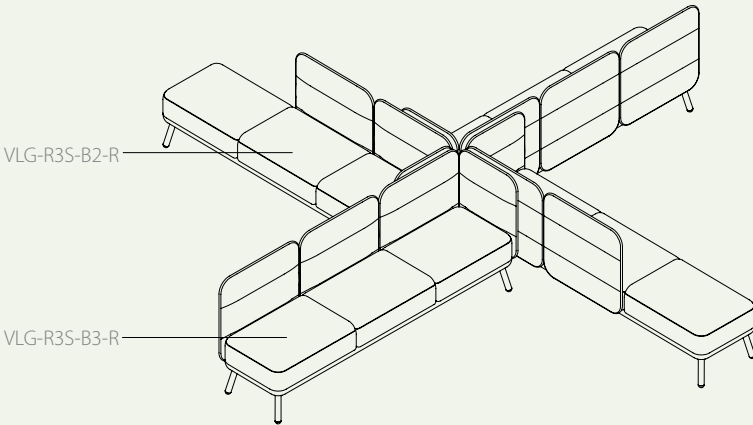

EXAMPLE # 19

Positioning lounges back-to-back creates smaller meeting, working, or quiet focus spaces.

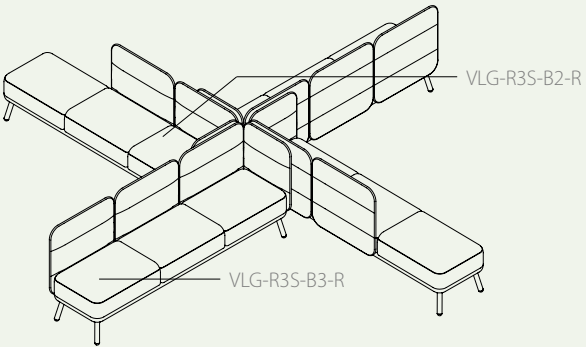

EXAMPLE # 20

Larger more open plan settings for meeting, dining, or connecting can be created by combining larger linear lounge models placing lounges back-to-back.

EXAMPLE # 21

Easily add visual texture and autonomy within a space with the combination of full-backrest and half-backrest lounges.

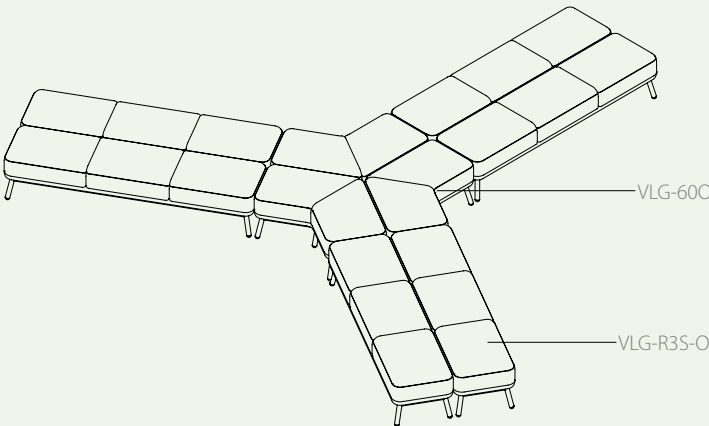

EXAMPLE # 22

Grouped together yet individual, our seating models with side panels create compact seating areas.

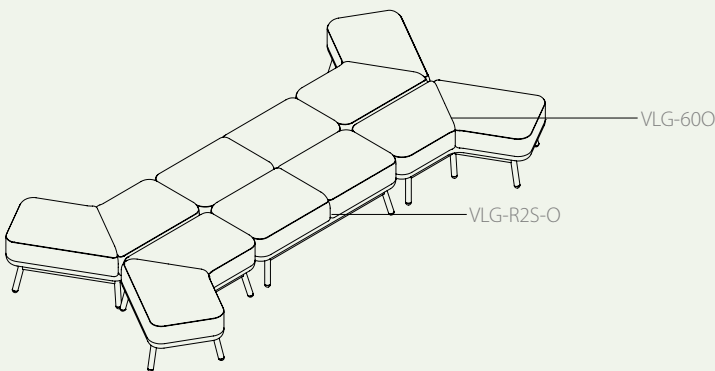

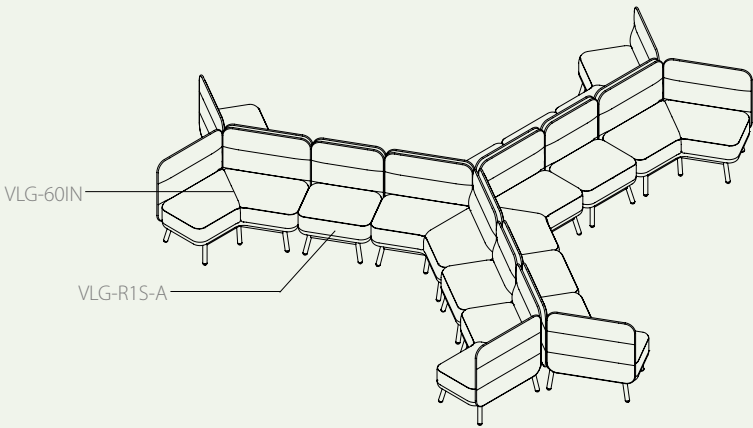

EXAMPLE # 23

Our longer two seater ottomans combined with inward facing 60-degree ottomans, offer informal combinations for larger open plan spaces, ideal for airports and foyers.

EXAMPLE # 24

For wider open plan spaces, single-seater lounges combined with inward facing lounges, mirroring back-to-back are ideal.

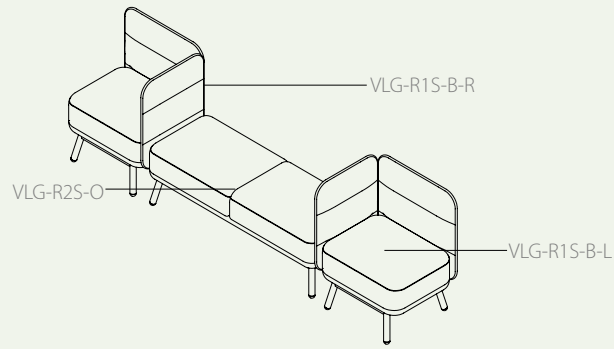

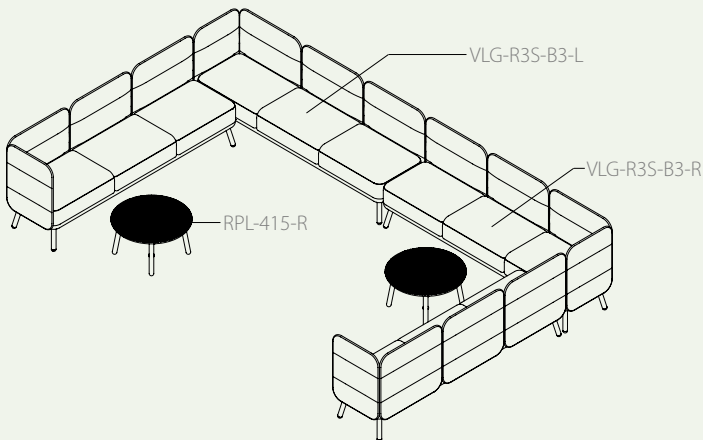

EXAMPLE # 25

Our ottoman seating models may be orientated back-to-back and combine different forms to create endless options in seating arrangements.

EXAMPLE # 26

Our The Village collection offers dynamic interchangeable options. More linear enclosed spaces are created with our 3-seater lounges.

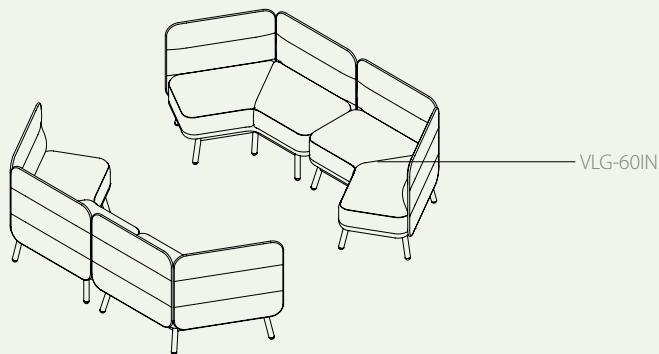

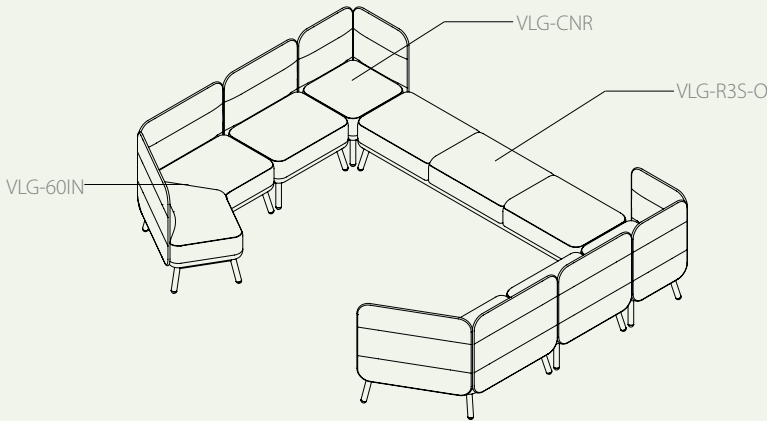

EXAMPLE # 27

Creativity, variety, autonomy come together cohesively with our lounge model options.

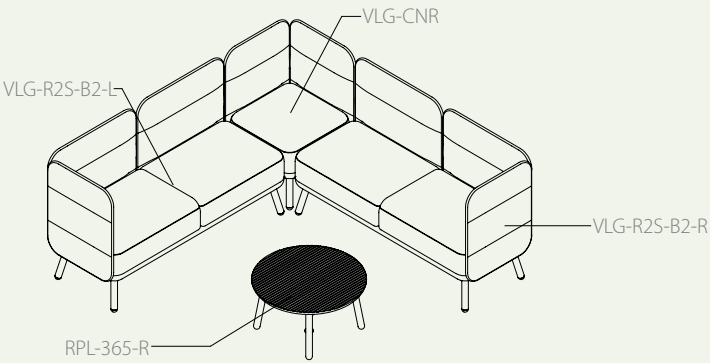

EXAMPLE # 28

Our The Village collection offers dynamic interchangeable options. More linear enclosed spaces are created with our 3-seater ottomans, corner units, and inward facing lounges.

EXAMPLE # 29

Interchangeable possibilities thrive in our The Village collection. Our 2-seater inward facing 60-degree lounges, enable more enclosed spaces.

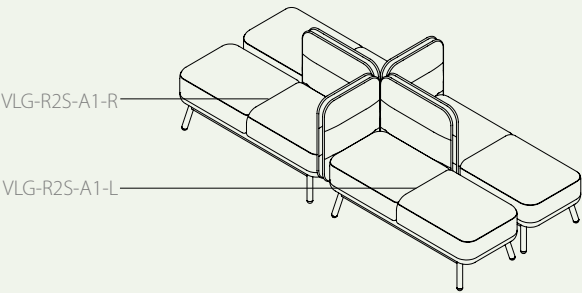

EXAMPLE # 30

In our The Village collection, interchangeable possibilities unfold. More linear enclosed spaces are conceivable with our 2-seater lounges and corner lounges

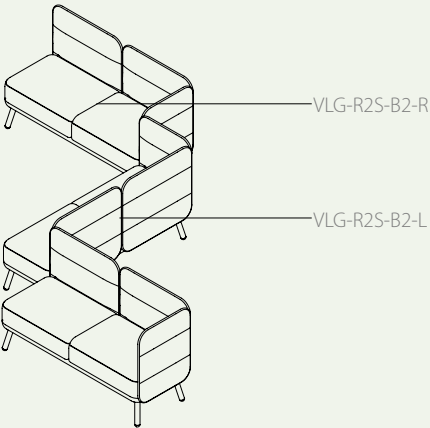

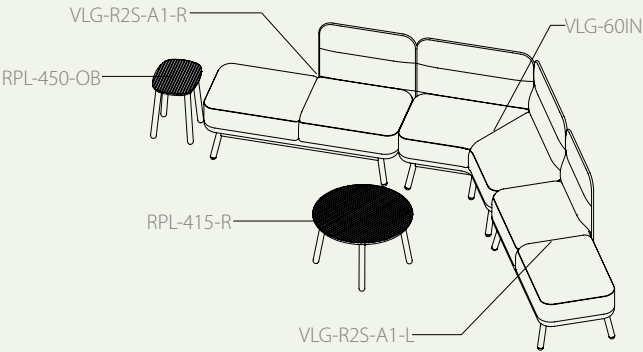

EXAMPLE # 33

Casual arrangements for retail, breakout, or workspace areas are easily defined with our half-backrest 2-seater lounges placed back-to-back to form a compact array.

EXAMPLE # 31

Rectangular half-backrest lounges and angular ottomans combine to create an irregular seating configuration that is both comfortable and compelling

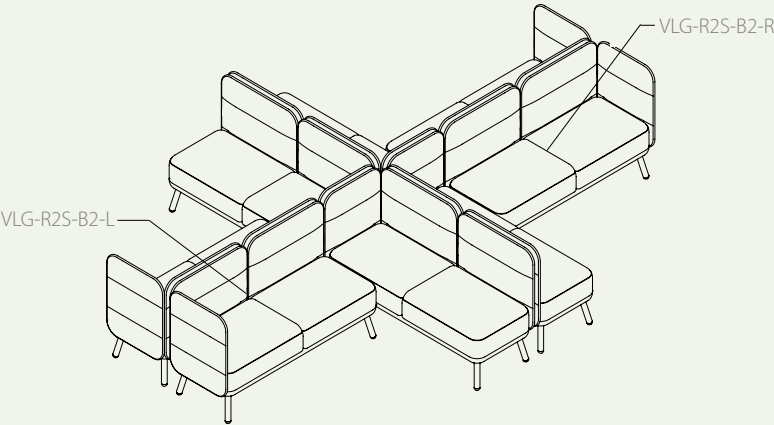

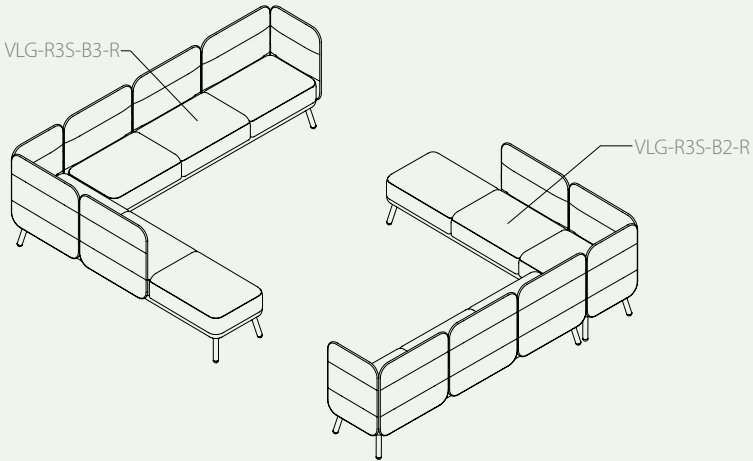

EXAMPLE # 32

Two seater sofa positioned in a stepped array provide optimal privacy, and create visual cohesiveness. Perfect for working, dining, or waiting areas.

EXAMPLE # 34

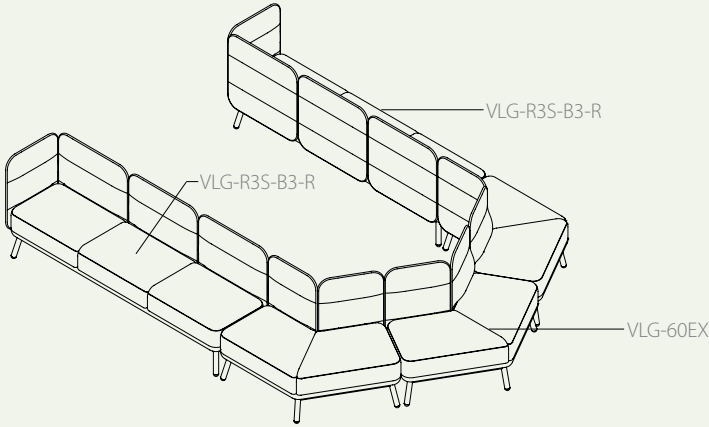

Our The Village collection of 2-seater lounges come together to create small meeting or dining nooks.

EXAMPLE # 35

L-shaped lounge areas are effortlessly achieved utilising 3-seater lounges with full backrests or 3/4 backrests

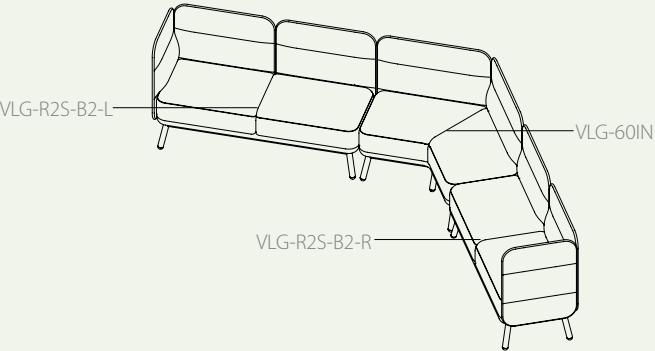

EXAMPLE # 38

For open plan environments our The Village collection can fit around objects such as columns, planters, or walls using our angled models combined with our more linear models.

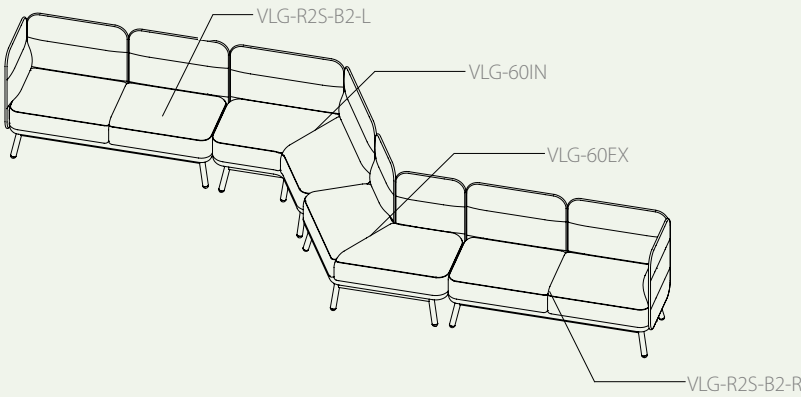

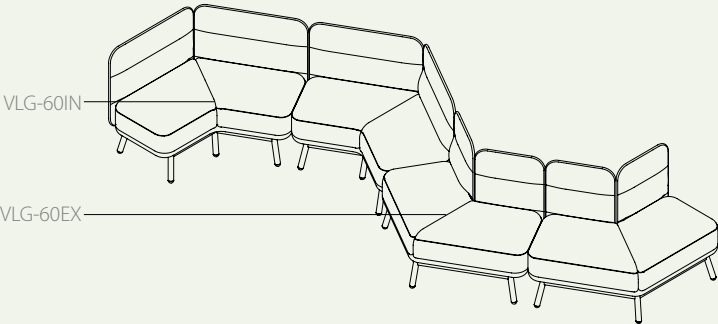

EXAMPLE # 39

60-degree lounges paired with 2-seater lounges provide visually engaging and dynamically distinct informal meeting, dining, or working environments.

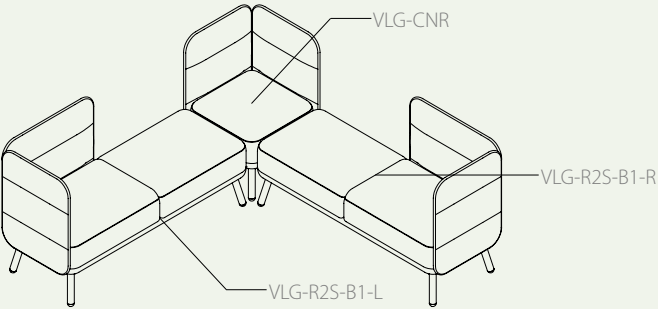

EXAMPLE # 36

Undulating informal seating formations are as easy as bringing together 60-degree outward facing lounges.

EXAMPLE # 40

Meeting spaces with a casual feel are expressed effortlessly with our The Village 2-seater lounges with an array of 60 degrees inward / outward facing models.

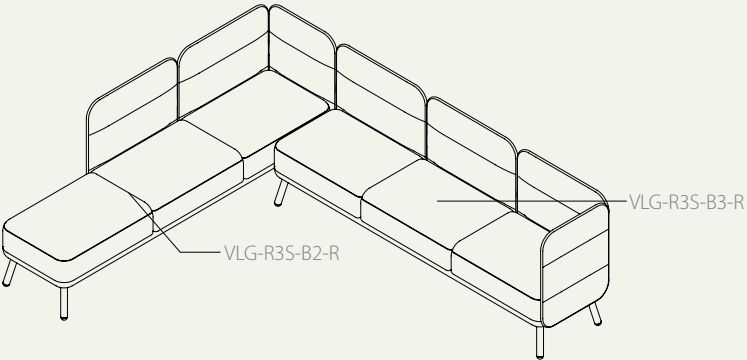

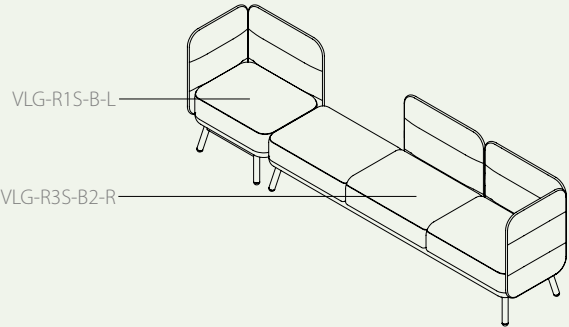

EXAMPLE # 37

Casual settings combining corner lounges with 2-seater lounges with corner backrests, pair well to create flexibility in compact interior spaces

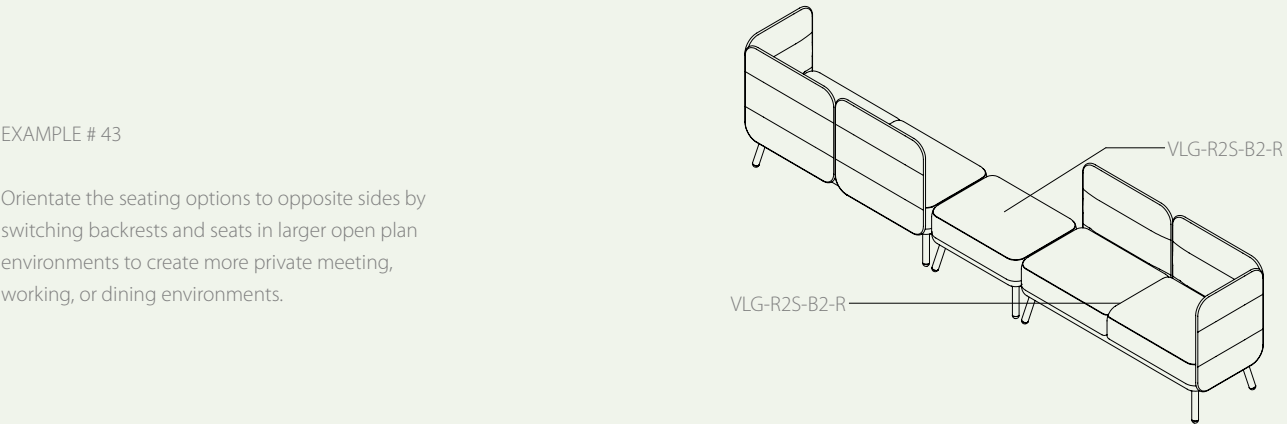

EXAMPLE # 41

Classic linear formations where breaks in backrests provide seating on either side of the seating.

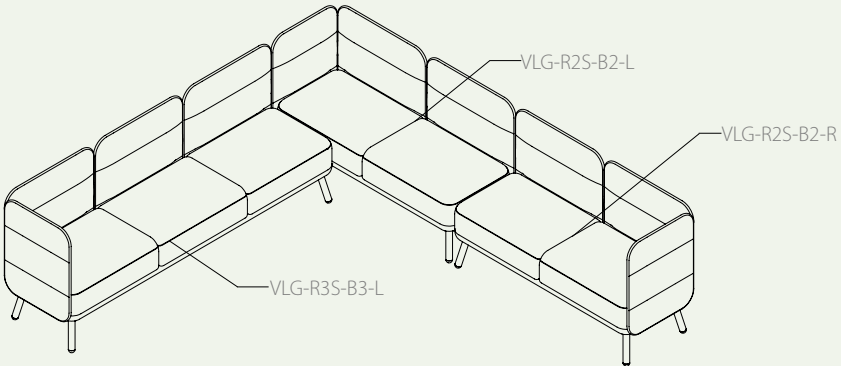

EXAMPLE # 42

Compelling corner seating configurations are created easily with our 3-seater The Village lounges.

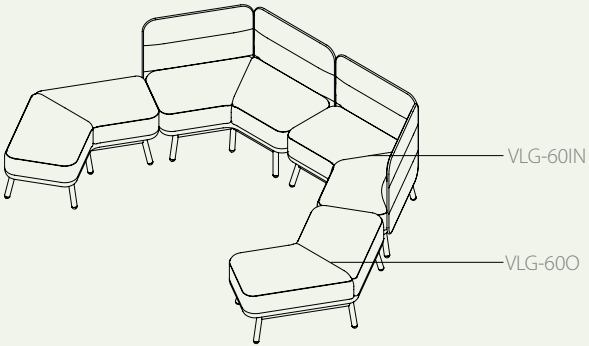

EXAMPLE # 43

Orientate the seating options to opposite sides by switching backrests and seats in larger open plan environments to create more private meeting, working, or dining environments.

EXAMPLE # 46

Corner seating configurations are easily put together in a casual environment with our 2-seater and 3-seater The Village lounges.

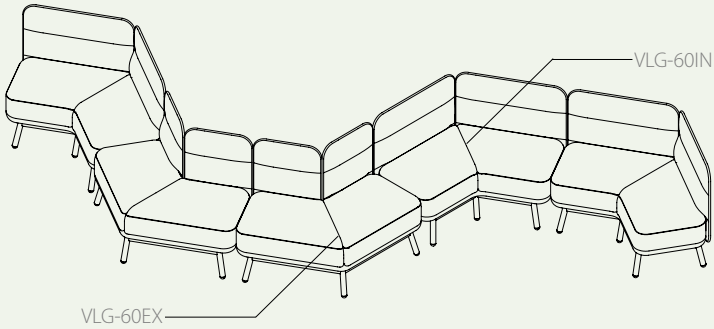

EXAMPLE # 44

60-degree internal facing lounges grouped together create engaging work or meeting spaces.

EXAMPLE # 45

Informal seating configurations are as effortless as pairing together 60-degree inward facing lounges and combining them with 60-degree outward facing lounges.

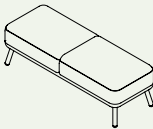

Specifications

Individual or additional lounge elements come together to create layered and flexible seating settings.
